An exceptional, regional, all-position radial with extra-wide, extra-deep tread designed to help deliver our best wear in high scrub applications.

Michelin® XZE2™

Michelin® A better way forward
**Michelin® XZE2™**

An exceptional, regional, all-position radial with extra-wide, extra-deep tread designed to help deliver our best wear in high scrub applications

**Matrix™ Siping technology** helps prevent irregular wear and increase traction. The 3D Matrix sipes lock together for the stability normally associated with solid tread blocks.

**Enhanced application specific compounds** to promote resistance to aggressions and longer tread life.

**Rib edge micro sipes** helps protect against irregular wear.

**Zig zag grooves** help increase traction in new and worn tire conditions.

**Full-width, elastic protector ply** helps protect the working plies from bruising and penetrations.

**Rectangular bead bundle** – a Michelin exclusive – simulates a solid steel rod “strapping” the tire onto the wheel. This design stabilizes the entire bead region and minimizes fatigue in order to extend casing life.

**Extra strong curb guards** help protect sidewalls against most impacts and abrasions for long casing life.

---

**Tread design may vary depending on tire size.**
