

Dec 2, 2015

To whom it may concern:

In the past months we have been using TCI's fleet inspection (Tire Care). We have had good results from it. Tire costs have always played a big role in our yearly budget and we have always looked for ways to lower our costs while continuing to be efficient. **Before** we had flat tires in and outside our location. We had about 3 to 4 events per week costing us about \$200 avg each time. **Now** we are only getting about one per month. We are confident this is due to the additional attention we have given to our tire program and the detailed inspections we have been getting. **Our Savings** has been about \$4,000 in about 8 months. I want thank our servicing dealer, TCI for presenting this program to us and for providing us this service.

Sincerely
